☎ +92 328 1929639

📍 Sadiqabad, Pakistan

PROFILE :

Aspiring Full-Stack Developer specializing in the MERN stack and Next.js, with strong foundational knowledge of building responsive and scalable web applications. Proficient in React, Next.js, TypeScript, and Redux Toolkit for state management. Experienced in REST API integration, database-driven applications, and modern web development practices. Passionate about software engineering, backend development, and continuously expanding technical expertise.

SKILLS :

- ✓ Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML, CSS, Tailwind CSS
- ✓ Backend: Node.js, Express.js, Next.js API Routes
- ✓ Database: MongoDB (Basic), MySQL (Basic)
- ✓ Tools: Git, GitHub, Postman

PROJECTS :

BookVault — Multi-Vendor Book Marketplace

GitHub Repository: <https://github.com/shahmeer-codes/book-store-website-nextjs>

- Built a multi-vendor marketplace using Next.js and TypeScript
- Implemented JWT authentication with role-based access (Admin, Vendor, User)
- Designed MySQL schema for inventory and transaction management
- Integrated Cloudinary for image upload and optimization
- Developed responsive UI using Tailwind CSS with dark mode support

MERN Stack Blog Platform

GitHub Repository: <https://github.com/shahmeer-codes/blog-Website-mern-project>

- Developed a full-stack blog application using React and Node.js
- Implemented JWT authentication with role-based access control
- Used MongoDB aggregation for basic analytics and engagement tracking
- Integrated ImageKit for optimized image delivery via CDN
- Managed application state using Redux Toolkit

EXPERIENCE :

Self-Learning MERN Stack Developer

2025 – Present

- Practicing full-stack development through real-world projects
- Learning API integration and authentication systems
- Improving debugging and problem-solving skills

EDUCATION :

BS Software Engineering (In Progress – 4th Semester Completed)

Khwaja Fareed University of Engineering & Information Technology

(KFUEIT), Rahim Yar Khan

2024 – 2028
